TRANSPORTATION SAFETY RESTRAINT POLICY

Academy Child Development Center, Inc. always maintains a high standard for safety when transporting children. Our Academy yellow school bus #2000 is an approved school bus. Yellow school buses are not required by the Maryland Motor Vehicles Administration to secure children in “car seats” or safety belts. Children riding in this bus will be secured with an anchored lap belt unless the parent requests no belt or that the child’s own approved car seat is used on the bus. We may not secure booster seats with lap belts only.

When riding in class M vehicles such as our white bus #2009, it is recommended that young children use an approved safety restraint system. Consequently, Academy has purchased approved seats for children up to 90 pounds.

Parents may occasionally transport children for field trips. These parent volunteers will be required to submit a copy of their current driver’s license prior to the trip. Before any child may be transported by private passenger vehicle, their parent must give permission and supply an approved safety restraint for their child’s use in the volunteer parent’s passenger vehicle.

Please tear off, complete and return to your child’s teacher:

Academy’s **Transportation Safety Restraint Policy**

Print Child’s Name: _____ **Center:** _____

I understand that all Academy buses are equipped with anchored lap belts. White bus #2009 has an approved safety restraint seat system installed for children under 90 pounds.

If my child is scheduled to ride on Yellow school bus #2000, my child does not need a car seat and will be secured with a lap belt. If I wish to bring a car seat for my child’s use, it will be installed with the anchored lap belt. The child’s approved car seat must have a 5 point harness restraint and be labeled with his/ her name.

Additionally, Academy must obtain written permission to transport my child in a volunteer parent’s private passenger vehicle.
